

# Income Is Linked With Health Regardless of Racial or Ethnic Group

Differences in health status by income do not simply reflect differences by race or ethnicity; differences in health can be seen within each racial or ethnic group. Both income and racial or ethnic group matter.

Family Income  
(Percent of Federal Poverty Level)

- <100% FPL
- 100-199% FPL
- 200-299% FPL
- 300-399% FPL
- ≥400% FPL
